EXPERIENCE

Front-End Engineer
@Creative Sound (Ramsat Al-Ibdaa)
Nov. 2020 - Jan. 2021 (2 mos)

-As a front-end engineer at Creative Sound I am responsible for:
- Build responsive, accessible and high-performance UIs for all devices.
- Work with designers to improve the overall UX design.
- Work with backend engineers to wire the web app parts together.

Full Stack Web Engineer
@Blue Ocean Solutions
Jan. 2020 - July 2020 (6 mos)

-As a full-stack engineer at Blue Ocean I was responsible for:
- Understanding, documenting and interpreting the business logic of the project to my team members.
- Create UI-UX designs using Adobe Xd and Photoshop to meet the business requirements.
- Design and implement database design and APIs.
- Build the responsive UIs for all devices and according to HTML5 semantics.
- Provide mentoring and guidance to my team members.

Full Stack Intern (Best Member)
@Blue Ocean Solutions
July 2019 - Dec. 2019 (6 mos)

- As an intern at Blue Ocean Solutions I had got training in the following:
- Front-End: JavaScript, React, Redux and React Native
- Back-End: PHP, MySQL and Laravel
- I have created 3 projects using Laravel, React and React Native as part of my evaluation test
